<b>Item</b> (Kitchen door, window etc.)	Floors for terraces
<b>Task</b> (Edges, lacquer etc.)	Cleaning after structuring
<b>Solution</b>	
Type of head (Flex Trim, Disc Sander or special head)	2 x Flex Trim ordinary sanding heads
Size of head (diameter)	300 mm Ø180
Machine	Profile sander
Brush height	30
Grit size	60 ceramic
Cut	4,5 + 20
RPM	App. 200 RPM
<b>Comments</b> (What to be special aware of)	
<b>Special results</b> (Surface, economical savings etc.)	The customer asked us to make the structure, which we said no to. But we succeeded in cleaning after the structuring and making the surface rough in order to avoid that the pieces was slippery when they are wet.
